

# PSEUDO ELEMENTS

::before & ::after

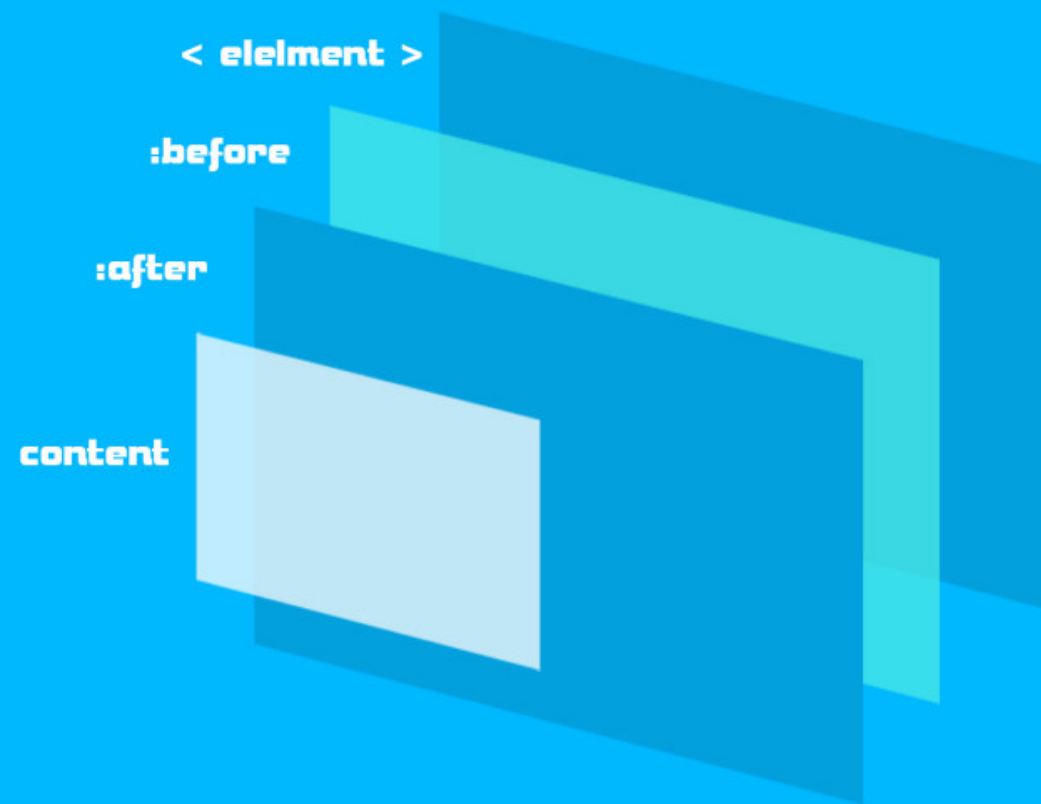

# What Are They?

- 1. What Are they?**
- 2. How are they used?**
- 3. What exactly is the content property?**
- 4. Using them for design**

# Pseudo Elements

## PSEUDO ELEMENTS

The `::before` & `::after` pseudo element will appear within the element they're attached.

You can think of the `content` property as a placeholder for your pseudo elements.
